

TUH-Jeanes Campus Honors Local Groups for Their Work in the Community

July 1, 2024

“This is always a special night,” proclaimed **Elly Reinhardt**, Chair of the Temple University Hospital-Jeanes Campus Community Advisory Board.

With this sentiment, Reinhardt opened the recognition ceremony and reception on May 29, 2024 for recipients of the TUH-Jeanes Campus 2023-2024 Community Grant Program.

Every year, TUH-Jeanes Campus honors the important work of community not-for-profit organizations during this special event held in the Cheltenham Friends Meetinghouse on the hospital’s campus. This year, the program bestowed 17 local community groups with grants totaling \$59,000, provided by the Anna T. Jeanes Foundation.

The event also encourages community networking and idea sharing across organizations to promote collaboration and to strengthen their overall efforts.

The local groups represent a wide demographic range across the TUH-Jeanes Campus service region, but share many commonalities in addressing such issues as poverty, addiction, food insecurity, elder care, education, and homelessness.

“Anna T. Jeanes gave money in her will to benefit many of the causes represented here among the organizations supported by this program,” Reinhardt said. “Some of the challenges we face today may be different, but the need is the same. Your work makes living in the world easier.”

Anna T. Jeanes: A Legacy of Service

The namesake of Temple University Hospital – Jeanes Campus (originally Jeanes Hospital), **Anna T. Jeanes (1822-1907)** was a wealthy philanthropist and social activist in her day. She was active in the anti-slavery movement and, following the Civil War, began the Negro Rural School Fund with Booker T. Washington to educate students and train new generations of teachers within the

peace.

The Foundation continues her work today through programs like the TUH-Jeanes Campus Community Grant Program, which has been funding innovative work in the community for more than 20 years. Each year, the Foundation solicits a call for proposals, and the TUH-Jeanes Campus Community Advisory Board selects projects that best match up with the current Community Health Needs Assessment that TUH-Jeanes Campus is required to produce regularly as part of the Affordable Care Act.

Grant presentations this year were made by Foundation members **James Fitzgerald** and **Martin Ogletree** and TUH-Jeanes Campus leadership, including **James Hazlett, MSN, RN, NE-BC**, Vice President and Chief Nursing Officer, and **Michael McCormick**, AVP, Finance.

Community Grant Recipients (2023-2024)
